BROADCAST FACILITIES & CREWS

MICHAEL SANDERS

DOP/Camera Operator

www.mjsanders.co.uk

I trained at Ravensbourne College and gained a wealth of industry experience before going freelance in 1997. During my career I have worked in all genres including news, documentaries, commercials, drama, corporate and live TV. I am used to working in sensitive situations and have a good understanding of politics, current affairs, science and film.

My current camera kit includes a Sony F55 and a Canon C300 with EF primes and zooms, along with a large tungsten lighting kit. I have extensive experience working on multi-camera shoots as DP, operator and technical manager. I also hold a current US I Visa.
